We are pleased to present the 2006 Annual Report for the Division of Student Affairs. As you will see in the pages which follow, the Division continues its pursuit of excellence while helping students fulfill their academic as well as professional aspirations.

You will notice changes in the layout of the Report. It reveals the successes we have achieved by working together and by building strong collaborative partnerships

throughout the campus community and beyond, but also illustrates how the individual successes are interwoven with the goals and objectives of the Division.

In the past months, we welcomed five new members to our senior staff. Together, we have made tremendous advancements this year; however, as we look to the future, our desire to improve upon the quality of services we provide students and their families will not waver.
