As we welcome students to the FSU campus for Fall 2021, the Division of Student Affairs would like to share our plans which mirror the guidance of the state’s Board of Governors. This document outlines plans to offer innovative, creative, and safe measures to foster engagement, community, and health and wellness. We are committed to safely offering the FSU experience and adapting this plan if necessary. We will continue to support students and create engaging experiences across campus.

Full vaccination against COVID-19 is the best, most effective way to protect yourselves and others from getting COVID-19 and preventing disruption of your studies, social activities, teaching, research or work. All FSU students, faculty and staff are eligible for the vaccine for free. You can schedule a vaccination appointment at vaccine.fsu.edu.

Those who choose not to be vaccinated are assuming significant risk of contracting COVID-19 and should be aware of the potential consequences, such as isolation and quarantine. Any student who tests positive for COVID-19 must isolate immediately. You may not participate in any in-person University activities until you are cleared by Secure Assessment for FSU Exposure Response (SAFER) Team.

Based on the Board of Governors’ direction, all testing, proof of vaccination, or proof of COVID-19 in the last 90 days is strongly encouraged, but voluntary. Florida State University expects all students to participate in this program to assist in the University’s mitigation efforts. Additionally, wearing masks indoors is expected on campus and required in designated healthcare locations.

We look forward to seeing you on campus.

Thank you,

Amy Hecht
Dr. Amy Hecht
Vice President of Student Affairs
UNIVERSITY COVID-19 GUIDELINES AND EXPECTATIONS

The following guidelines and expectations are a part of the overall Florida State University Fall 2021 Plan. As stated in the plan, our goal is to provide a healthy and safe environment for all members of the university community. To help ensure this goal is met, students will be required to adhere to the guidelines and expectations outlined in the plan and the Guidelines for Events and Gatherings. We each play a role in our community’s effort to mitigate the spread of COVID-19. Recognizing this reality is crucial to preserve the level of instruction and campus life we want to offer. Although it is our aim to take an educational and proactive approach, noncompliance with guidelines or expectations may be referred to the Office of Student Conduct and Community Standards.

Any student who tests positive for COVID-19 must isolate immediately. University Housing is at full capacity and subsequently has very limited space available for students who need to isolate. Most students who test positive will need to return home or find their own isolation space off campus. You may not participate in any in-person University activities until you are cleared by Secure Assessment for FSU Exposure Response (SAFER) Team.

Because circumstances are fluid, there may be updates to these guidelines and expectations. These changes will be included in updated versions of this document and will be communicated to the university community as applicable. Below is a summary of guidelines and expectations. Refer to the Stay Healthy FSU website to see the details in their entirety: stayhealthy.fsu.edu.

- Practice social distancing.
- Face coverings are expected in all indoor facilities on campus and required in designated healthcare locations. Face coverings will be available in multiple locations on campus if a student does not have access to or has forgotten their face covering.
- Schedule your vaccination at vaccine.fsu.edu.
- Follow the Guidelines for Events and Gatherings (pp. 10–11).
- Comply with any COVID-19 testing instructions, if applicable.
  - All students are highly encouraged to be tested as needed.
  - Students can register for testing at the FSU testing site uhs.fsu.edu/covid-testing-fsu.
- Comply with the SAFER (Secure Assessment for FSU Exposure Response) Program/Surveillance, if applicable.
- Comply with any quarantine and isolation directions, if applicable.

DAILY WELLNESS CHECK

Participating in a daily wellness check supports the overall health and wellness of the Florida State community. All students are encouraged to complete the Daily Wellness Check Tool in
the MyFSU MobileApp or portal each day before coming to campus or leaving their residence hall. The Daily Wellness Check Tool asks if you have experienced symptoms or if you have been exposed to a COVID-19 positive individual. Students who pass the wellness check can move about campus, observing social distancing guidelines and wearing a face covering. Students who do not pass the wellness check are highly encouraged to follow the instructions provided on the MobileApp.

CONTACT ASSESSMENT

Because the University prioritizes the health and safety of our community during this public health emergency, any information reported to the University for purposes of contact assessment and exposure mitigation will not result in an individual student or student organization being charged with a violation of University policy if the student or organization cooperates fully and truthfully with the University or public health official.

CLEANING & SANITIZING ON CAMPUS

- All cleaning and disinfecting on campus will follow CDC standards utilizing EPA registered List-N disinfectant agents.
  - A list of pre-approved EPA List-N registered household disinfecting spray and wipe products that can be used on the COVID-19 virus can be found here.

STUDENT TRAVEL POLICY

Effective August 9, 2021, Student organizations and groups may travel, in-state and out-of-state, when COVID-19 mitigation strategies are in place and the travel has been approved in advance by the appropriate Division of Student Affairs oversight unit for the organization (regular request process).

For select events, the submission and approval of an enhanced risk management plan may be required by the relevant DSA unit overseeing the organization or activity. The plan shall be submitted alongside the required documentation of the regular travel request process for that organization. Review and approval of such travel shall be completed by the Vice President for Student Affairs or designee.
RESPONSE TO COVID-19 POSITIVE STUDENT CASE

LET US KNOW! (REPORTING A COVID-19 POSITIVE CASE)

• If you are tested through the FSU testing program or at University Health Services (UHS), results will be reviewed by a clinician. The test results will be shared with the Secure Assessment for FSU Exposure Response (SAFER) Team and University Housing if applicable. This will ensure proper response including sharing isolation guidelines, telehealth care from University Health Services (if needed), and conducting appropriate contact assessment to mitigate the spread of the virus.

• If you have been tested by an alternative testing site or by an independent health care provider, we highly encourage you to let us know if you have tested positive by accessing the Daily Wellness Check Tool in the MyFSU MobileApp or portal so we may provide the proper support and response through the SAFER program. We do receive information from the Florida Department of Health, but it is best for you to let us know in a timely manner.

MISSING CLASS DUE TO ILLNESS

If necessary, students should contact instructors and inform them they will not be attending any face-to-face classes for 10 days. Faculty should not require documentation of illness related to COVID-19. University Health Services will not provide documentation to students who were not treated as a patient in the facility.

QUARANTINE AND ISOLATION REQUIREMENTS

Confirmed Positive (or Presumptive Positive)

Self-isolate immediately. Isolation means that whenever possible that you remain away from others. A separate sleeping arrangement and separate bathroom is preferred to reduce exposure to others. If a separate bathroom is not available, clean between each use. Do not leave under any circumstance except to seek medical care. Do not invite others into your room. Monitor symptoms. Telehealth visits at University Health Services are available at uhs.fsu.edu/telehealth-televisits or call (850) 644-4567.

• Students living on campus who test positive will need to return home or find their own isolation space off campus.

• Off-site housing – you may isolate in your own apartment or home. Students who are unable to return home or find alternative off-campus housing can discuss with University Housing staff to help find options.

You will be notified by UHS when you are cleared to return to campus activities according to CDC guidelines.

• If you remain without symptoms during the entire 10 days (asymptomatic):
  o 10 days from date of positive test result

• If you develop symptoms (symptomatic):
  o Minimum 10 days from date of positive test results AND resolution of fever without the use of fever-reducing medications AND improvement in symptoms for 24 hours
Exception
In the rare cases when people become severely ill and require hospitalization or have immunosuppression, it may be necessary to isolate for 20 days or longer. These are to be decided with close consultation of your treating physician and the Florida Department of Health.

Close Contact
NOTE: Issues of isolation and quarantine are under the legislatively designated authority of the local public health department. Thus, in coordination with the FL Dept of Health and the Leon County Health Department, the FSU policies for quarantine after close contact with COVID-19 are defined below:

What counts as close contact?
All persons, especially those who may have had close contact, should routinely monitor for symptoms of COVID-19 including:

- Fever (100.4°F or more) or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Refer to the CDC website here: [https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine.html](https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine.html) for updated quarantine and isolation details (as of 8/18/21).

1. For unvaccinated individuals, quarantine for 10 days away from others after an exposure.
   - A test is recommended 5-7 days after the last date of exposure, even if you don’t have symptoms.

2. For vaccinated individuals, quarantine is not required if you do not have symptoms.
   - Please submit proof of vaccination here: [https://fla.st/QPDYF0GT](https://fla.st/QPDYF0GT). This will be confidentially shared with the Florida Department of Health for the purpose of quarantine release if your record is not already on file.
   - A PCR test is recommended 3-5 days after your exposure, even if you don’t have symptoms.
   - You should wear a mask in public indoor settings for 14 days following exposure or until your PCR test result is negative.
   - If you develop symptoms, (even after an initial negative test), please quarantine immediately and test (or re-test) for COVID-19.

3. For those who have tested positive within the last 90 days, quarantine is not required.
   Please submit documentation to UHS at uhs-MedicalRecords@fsu.edu.
IF ASKED TO QUARANTINE

The Leon County Health Department will provide the most current guidance for students asked to quarantine. These protocols are as of 8/18/21.

At this time due to volume with the Delta variant, FSU will not be processing negative test results for the option for shortened quarantine in collaboration with the Leon County Health Department. Individuals asked to quarantine should complete 10 days before returning to campus.

1. **10 days** - If the exposed individual has maintained careful daily monitoring for symptoms and has remained symptom-free for 10 days since exposure, they may be released from quarantine AFTER 10 days (or on Day 11 since last exposure)
2. **7 days** - If the exposed individual has maintained careful daily monitoring for symptoms and has remained symptom-free and receives a negative PCR test collected on day 6 or 7 after exposure, they may be released from quarantine AFTER 7 days (or on Day 8 since last exposure)

In both shortened option scenarios, individuals must adhere strictly to public health mitigation through Day 14, including correct and consistent use of a face mask, social distancing, hand hygiene, avoiding close contact and crowds, and self-monitoring for symptoms. Additionally, close contacts who develop symptoms within the 14 days should seek medical care and testing.

GUIDELINES FOR EVENTS AND GATHERINGS

In response to the COVID-19 pandemic, the Division of Student Affairs at Florida State University is setting forth guidelines and expectations for on and off campus events and gatherings. Florida State University remains committed to ensuring the health and safety of our campus community. These guidelines are not exhaustive, and event planners and venue managers should consider all event-specific and venue-specific factors to mitigate risk and ensure the safety of event attendees. Please refer to the Centers for Disease Control and Prevention (CDC), local, state and federal guidelines for additional information and recommendations.

Events hosted on campus by student organizations and groups associated with the Division of Student Affairs (DSA) shall complete the appropriate event approval process with Campus Event Services or related DSA unit.
- Events involving a large number of concurrent attendees may require the submission and approval of an enhanced risk management plan. Such events are encouraged to be held outside in open air spaces, when possible.
- Event planners may consider conducting virtual or hybrid events for persons of higher risk or vulnerability to illness from COVID-19.
The following guidelines and protocols are recommended for all events:

- Face coverings are strongly recommended for all event attendees, particularly when large groups of people are present in enclosed spaces.
- Student organizations may require face coverings at activities or events.
- Physical distancing of at least 6 feet is recommended between all event attendees.
- Food should be individually packaged or served to attendees by event staff.
- Events with alcohol require the submission and approval of an enhanced risk management plan.
- Hand washing and/or hand sanitizer stations should be readily available at the event.
- It is recommended that students use the Daily Wellness Check Tool in the MyFSU MobileApp or portal.
- Event advertising shall encourage persons of higher risk or vulnerability to illness from COVID-19 to refrain from attending the event and include the following information:
  - Signage at event entrances shall inform attendees of COVID-19 symptoms and encourage persons exhibiting symptoms to refrain from entering the event space.
  - Event attendance shall be captured through a written attendance sheet, FSUCard Swipe application, or alternative method and must be made accessible for contact assessment upon request.
  - Tabling shall be permitted indoors and outdoors following the event guidelines for the hosting space.

Full vaccination against COVID-19 is the best, most effective way to protect yourselves and others from getting COVID-19 and preventing disruption of your studies, social activities, teaching, research or work. All FSU students, faculty and staff are eligible for the vaccine for free. Those who choose not to be vaccinated are assuming significant risk of contracting COVID-19 and should be aware of the potential consequences, such as isolation and quarantine. Schedule a vaccination appointment at vaccine.fsu.edu.

Guidelines and protocols are subject to change in response to changing local and regional public health conditions.

If Florida State University determines an event or gathering is not meeting the guidelines and expectations set forth, the University reserves the right to (1) deny or cancel the event or gathering (even if the event has started), (2) deny the event organizer from reserving on-campus space in the future.

SEMINOLE DINING

Seminole Dining is open for Fall 2021, with fresh, quality offerings in all our dining locations. We are committed to the well-being of our students, faculty, and staff, and maintain processes and protocols to help ensure the safety of campus dining operations at all times.

CLEANING & SANITATION

- CLEANING: Our sanitation standards are industry-leading and designed to ensure that all equipment, service wares and physical spaces are maintained at the highest level of cleanliness. Our products (detergents, sanitizers and disinfectants) have the highest possible efficacy ratings and each associate receives extensive and ongoing training to guide them through specific cleaning requirements for every station and space.
• **HIGH TOUCH CLEANING:** As part of our efforts to maintain the safest possible environments, each location has identified the surfaces and items that warrant more frequent cleaning and sanitation, such as tabletops, door handles, condiment stations, stair rails, etc.

• **EQUIPMENT:** All equipment utilized in cleaning and sanitation, including dishwashers and chemical dispensers are checked multiple times per day for correct temperatures, concentrations and functionality.

• **Health Guidelines**
  o **HAND HYGIENE:** The most important safeguard against spreading germs has always been proper hand hygiene. We have provided our students and guests with hand sanitizer, ‘no- touch’ service options and targeted signage and communication to promote hand hygiene. Our employees receive substantial and ongoing training on proper hand hygiene and the appropriate use of gloves, as well as a schedule of mandatory hand washing.
  o **FACIAL COVERINGS:** You may notice that some employees are wearing facial coverings and some are not. Where permitted by location regulations and campus policy, employees who have certified that they are fully vaccinated against Covid-19 are no longer required to wear facial coverings at work. Non-vaccinated employees (as well as those who choose to) will still wear face coverings while at work. Our facial covering policy remains aligned with current CDC guidance and additional adjustments will be made as conditions continue to improve.
  o **EMPLOYEE HEALTH:** Before starting work, each employee confirms daily that they are not experiencing any symptoms of illness (coughing, fever, shortness of breath, etc.).

**PRODUCT SAFETY**

• **VENDORS & SUPPLIERS:** All suppliers must pass stringent safety and sanitation requirements to gain and maintain approval to be a vendor.

• **FOOD SAFETY:** Our standards for food receipt, storage, handling and preparation are detailed and specific. Each step of the process is monitored and documented so that quality, temperature control, and contamination risks are managed at all times.
